

We produce special perforated sheets of every kind, in any metal, with zone perforation and sizes on demand. We specialize in micro perforated sheets holes-as-thickness ( $\phi$ =thick), on drawing, as sector, as trunk of cone, whose we are leader. Our main feature is the high flexibility: we produce on demand prototype to mid series. Here you can find custom perforated sheets as we make exactly what you need.

## MAIN PRODUCTS LIST

### Products

- Microperforated
- Round holes
- Oblongs / slots
- Square holes
- Rectangulars
- Hexagonals
- Octagonals
- Flared/milled
- Embossed

### Materials

- Aisi 304
- Aisi 316
- Aisi 321
- Mild Steel
- Galvanized
- Aluminium
- Copper
- Brass

### Size

- Out of standards
- At measure
- As disk / as seave
- Trunk of cone
- 300 x 300 mm up to 1250x2500 mm

### Thickness

- 0,3 ÷ 10 mm

### Quantity

- No minimum order
- Prototypes
- Small series
- Medium series

### Third parties

We work sheets given by Customers and Wholesalers

### Customizing

- On demand
- At measure
- On drawing
- At zones

### Optionals

- Laser cutting
- Fixing holes
- Bending

### Microperforated

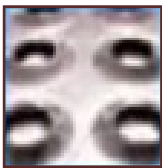

Low thickness sheets where holes diameter and thickness value are the same.

### Oblongs / Slots

Perforated sheets with oblong holes, straight staggered parallel long / short side.

### Flared & Milled

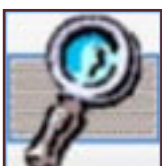

Perforated sheets with flared holes, milled holes sheets, sheets for staircases.

### Sector & Seaves

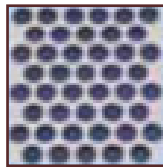

Sectors, seaves, trunks of cone as drawing, at measure even small quantity.

### Custom Products

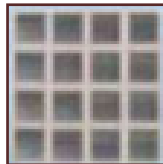

Wide range of special sheets on demand even small quantity and prototypes.

### Round Holes 60°

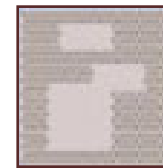

Round hole staggered 60° pattern from  $\phi$  of 0,5 mm on 0,5 mm thickness above.

### Square Holes

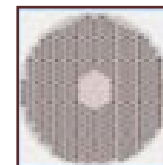

Square holes sheets disposition straight, staggered, diagonal etc.

### Zone Perforations

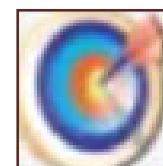

Perforated sheets at zone, as drawing, in large and small series or even single.

### Perforated Disks

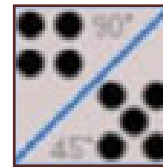

Perforated disks with decreasing perforation and borders also with blind center.

### Direct Producers

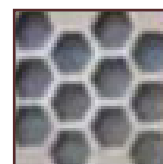

- No minimum order
- Work on drawing
- Custom products
- Fast delivery

### Rounds at 45° & 90°

Sheets with other perforations at 45° or 90° are also available on demand.

### Hexagonal Holes

Hexagonal holes with high OA%, even at zones, small mid series and prototype.

### Specila Holes

Pocket holes, triangle, octagon, rhomb, half moon, round slot, and many more.

### Embossed Sheets

Embossed sheets of round type, square, lozenge, rhomb and stick shape.

### We Do Not Make

- Metallic mesh
- Metallic nets
- Carpentry
- Installations
